

Indicator: # of teachers who demonstrate a minimum number of recognized teaching practices in English teaching skills (ED_TEFL_052)EDUCATION SECTOR 

PROJECT AREA: TEFL

Type: Outcome

Unit of Measure: Teacher

Disaggregation: Sex: Male, Female

Outcome Measured: Teachers increase their capacity in teaching English**Precise definitions****English language teaching skills:** The Standardized Teacher Observation Checklist lists 10 English language teaching skills that will be used for this measurement.**Minimum number of teaching practices:** Teachers must demonstrate five out of the 10 English language teaching skills listed in the Standardized Teacher Observation Checklist.**Data collection****Tool:** The Standardized Teacher Observation Checklist used by all Volunteers in the TEFL project area.**Frequency of data collection and tracking:****Time 1 (T1)—Beginning of school year (or intervention):** At the beginning of the school year (or intervention), PCVs will observe one English class for each teacher they expect to work with over the course of the school year. Record the teacher's name and number of demonstrated English language teaching skills under the T1 score column in the Teacher Observation Score Tracking Sheet (below). If a teacher demonstrates at least five of the English language teaching skills at T1, *do not* include this teacher in the measurements. This individual already meets the minimum number of general teaching skills and should *not be* further recorded on the tracking sheet.**Time 2 (T2)—End of school year:** At the end of the school year, PCVs will observe one English class for each teacher who meets the minimum requirements described below (see "Who to measure"). Record the teacher's T2 scores in the tracking sheet.**Time 3 (T3)—End of subsequent school year, if applicable:** Some teachers may not demonstrate the minimum number of English teaching skills after only one year of work with the Volunteer. If a teacher who continued to meet the minimum requirements below (see "Who to measure") did not demonstrate at least five of the 10 English language teaching skills at T2, then the PCV will again observe the teacher's English class at the end of the subsequent school year. Record the teacher's T3 scores in the tracking sheet.**Who to measure:** For this outcome measurement, Volunteers should only include teachers they have worked with regularly throughout the school year on one or more of the following activities focused on increasing capacity in English teaching skills:

1. Facilitate informal or formal communities of practice to share strategies and tips for effective English teaching or general teaching skills
2. Model teaching and/or peer observation of general and English teaching skills with teachers
3. Co-plan and co-teach with teachers to implement general and English teaching skills
4. Plan and (co-)train teachers in workshops on strategies for general and/or English teaching
5. Work with teachers to design, adapt, and/or pilot learning materials

Reporting

Measuring progress toward the outcome, by sex: A teacher will be considered to have increased his/her capacity in English teaching skills if the teacher demonstrates at least five of the 10 English language teaching skills listed in the Standardized Teacher Observation Checklist at T2 or T3 (if applicable).

- For all teachers who demonstrated the minimum number of teaching skills at T2, place a Y in the cell that corresponds to the teacher’s sex in the first Teacher Observation Score Tracking Sheet (below).
- For all teachers who did not demonstrate the minimum number of teaching skills at T2, place an N in the cell that corresponds to the teacher’s sex.
- Record the sum of all Ys + Ns for each sex in the row titled “TOTAL REACHED” and the sum of Ys only for each sex in the row titled “TOTAL ACHIEVED.” Report both column totals in the VRF.
- If a teacher did not demonstrate the minimum number of teaching skills at T2, use the second tracking sheet with the T3 column to repeat the observation and reporting process for that teacher at the end of the subsequent school year.
- Record the sum of all Ys + Ns for each sex in the row titled “TOTAL REACHED” and the sum of Ys only for each sex in the row titled “TOTAL ACHIEVED.” Report both column totals in the VRF.

Note: Individual teachers may only be counted once as part of the “TOTAL ACHIEVED” in a Volunteer’s service for this indicator. If the same individual is eligible for measurement for another indicator, he/she may be counted for that indicator according to the guidelines in that indicator’s definition sheet.

How to report missing values: If a teacher does not have a score at T1, *do not* include this teacher in the measurement or on the tracking sheet. If a teacher has a score at T1 but does not have a score at T2, record NA in the final column and do not include this teacher in the totals reported in the VRF.
